REMARKS

The present application contains claims 1-17, 22, 23 and 41, of which claims 1, 22, and 41 are independent claims. In the Office Action of March 8, 2007 all the claims were rejected either for anticipation under 35 U.S.C. 102 or obviousness under 35 U.S.C. 103(a). In addition, all the claims were provisionally rejected over pending "reference" application 10/021,238.

A response to the office action and interview was filed on August 9, 2007. In the response, the applicants amended claims in conformity with agreements reached in the April 12, 2007 interview to overcome the anticipation and obviousness rejections and offered to file a Terminal Disclaimer to obviate the double patenting rejections upon indication from the Examiner that the amended claims are allowable.

The Examiner indicated in voice messages recorded on the undersigned's phone, that a best way to advance the present application to allowance was to file the offered Terminal Disclaimer. Accordingly, the applicants have attached herewith an appropriate Terminal Disclaimer.

The undersigned thanks the Examiner for the telephone message notifications.

An action on the merits is respectfully awaited.

Please charge the terminal disclaimer fee under 37 CFR 1.20 (d) to deposit account No. 50-3400.
